

Color Palette

Overview

The Pennoni palette is thoughtfully balanced; allowing for an intriguing interplay of clean whitespace, bold pairings, colorful and friendly accents, and warm neutrals.

DIGITAL COLOR

For all web or on-screen purposes use the RGB or HEX values indicated. These colors values are specified for on-screen display only. **They should NOT be used for print.**

PRINT COLOR

Use the solid Pantone® or CMYK (4-Color Process) values for reproducing our color accurately in print. Pantone® and CMYK color values are specified for print and may not appear correctly on-screen. **They should NOT be used for web or digital display.**

* Bright Green should only be used in materials being professionally printed.
